Deering, New Hampshire,
August 19, 1933.

To the Selectmen:

We the undersigned residents and tax payers of the town of Deering call attention to our particular need for police protection for our properties. We do this because many of our homes were broken into during the past winter and spring and much valuable material stolen.

We respectfully point to the increase of funds made available to the town by reason of the taxes paid by us and petition the Selectmen to instruct the police officer to periodically visit and inspect our properties during the months of our absence.

We urge the same consideration of this our particular need by the Selectmen as is given by them to the other needs of the residents of the town who are present in the community during the entire year.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of the Deering School District:

The Superintendent of Schools herewith respectfully submits his fifteenth annual report, being the report of supervision for the year 1932-1933.

Four schools were in session, and the following table gives the usual information.

Table No. 1

School	Teacher	Salary	Yrs. Exp.	Education	State App.
West	Mrs. Alice Colburn	\$800 00	13	Syracuse Univ.	C
North	Erlene Murdough	800 00	3	Keene Normal	C
Pond	Hazel Thompson	800 00	2	Plymouth Normal	C
Manselville	Janet Webster	733 33	0	Concord Training	L

All but Miss Webster had taught in this District before. Miss Webster was a graduate of the Concord High School, and the Concord Training School. Miss Ruth Whitcomb of Concord acted as school nurse for her second year.

Table No. 2 is a table of attendance, tardiness and visits.

Table No. 2

School	Percent of Att'nd'nce	Cases of Tard'ess	Cases per Pupil	Honor Roll	Visits by		
					Parents	Board	Supt.
North	91.5	7	1.4	0	35	5	17
West	88.5	11	1.0	0	33	3	18
Pond	90.3	37	4.0	0	28	2	17
Manselville	95.5	53	3.2	0	74	5	32
		—		—	—	—	—
		108		0	170	15	84

The percentage of attendance was very poor, Manselville being the only district in which the attendance was even fairly good, but that school and the Pond School had had an exceedingly poor tardiness record. Of the 170 visits by parents and others 70 were made to the Christmas and Memorial Day exercises leaving only 100 visits to the four schools during the regular school exercises. The Superintendent plans to make about the same number of visits to each school, or rather to each teacher in his Union unless there is special need of extra visits to some school. Ordinarily he attempts to see each of his 40 teachers once in two weeks, and then during what time may be left he visits wherever there seems to be special need.

There are no names for the Honor Roll of Perfect Attendance this year, which is an unusual occurrence. Table No. 3 shows the distribution of boys and girls by grades.

Table No. 3

Grades	Boys	Girls	Total
1	4	5	9
2	3	1	4
3	4	5	9
4	1	4	5
5	2	1	3
6	1	4	5
7	2	0	2
8	1	3	4
	—	—	—
Totals	18	23	41

Table No. 3 shows that we have 41 in our own schools. We had 13 in the Hillsboro High School, 4 in private schools, and 8 in college or Normal Schools, a total of 66 in school. I wonder if many towns have more than one out of five of their population in school, and one out of 40 in college.

At the close of the school year very pleasant graduation exercises were held in the Town Hall. The Pond and West Schools were awarded pictures by the Community Club for excellence in their work, and the same Club gave the children of members, who graduated from High School, \$2.50 each. This year they were awarded to Jean Elkins, a graduate of the Concord High School, and to Marie Johnson who was graduated from the Hillsboro High.

The cost of education this year was \$302 less than last year, but is still quite high, and it surely is of interest to tax payers to have the reason for this high expense clearly stated. First, how about your Superintendent's salary? The Superintendents of the state received 3.6% of all the money paid out for education for their salary. Your Superintendent received 2.1% of what we spent, for

Deering's share of his salary. If he were to receive from Deering the average amount paid New Hampshire superintendents he would have received from Deering alone \$100 more than he did receive. These figures were for last year, the latest obtainable for the State average, and show that our high expense is not chargeable to that item. The cost of transportation in the State was 6% of the total expense while that item cost us 7.2%. High School tuition averaged in the state as a whole 4.3% of the total amount, while that item cost us 20.3% of all we spent. That is where we find the cause of our expenses being above the average.

The total cost for high school tuition was \$1,149.79 this year which is far less than we could give them a high school education at home, not considering the many advantages gained by sending them to Hillsboro. We have, as I have pointed out before, a large number of pupils continuing their education beyond the grades, and we should be proud of that fact even though it costs us almost one-fifth of all the money spent for education.

Respectfully submitted,

A. A. HOLDEN,
Superintendent of Schools.
